

Reflective plate 210 x 297 mm (orange)

Part No. 500113

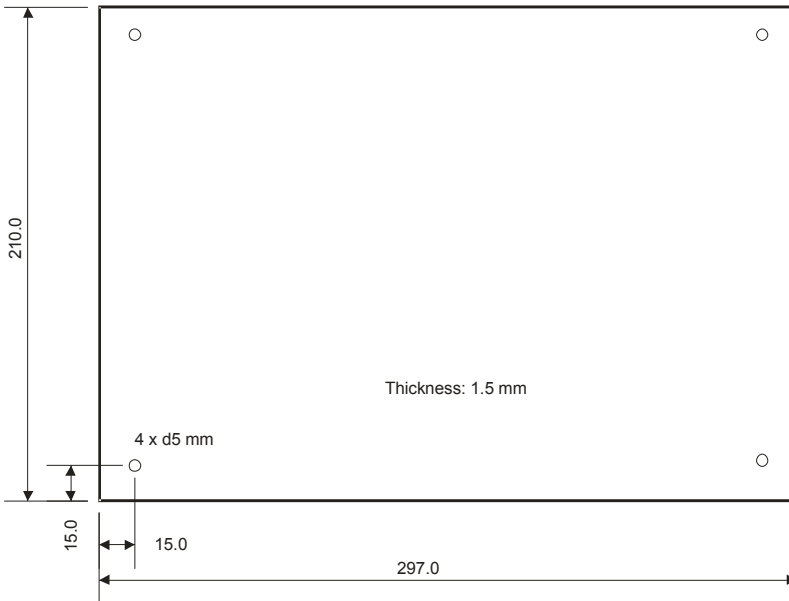

The reflective aluminum target plate provides a defined measuring target to improve conditions for signals reflected to the DLS, FLS and D-Series measuring device.

The target plates are applicable for the following distance ranges:

- D-Series from about 0.5m to 500m
- DLS from about 25m to 500m
- FLS from about 0.5m to 500m

Dimensions

Size 210 x 297 mm

Thickness 1.5 mm

Order information

Part No.	Description
500113	Reflective plate 210 x 297 mm (orange), applicable distance range
	D-Series ~0.5m ... 500m
	DLS ~25m ... 150m
	FLS ~0.5m ... 500m
